DEKRA is now looking for competent and qualified Quality Manager to work in Mid senior level for our Product testing business in Pune. Please note that experience of Quality management system in service sector is a must.

As a Quality Manager your job functions would primarily be

- Ensuring the implementation of the quality management system in accordance with Global policies, following ISO/IEC 17025 standards.
- Monitoring the implementation of the Product testing quality management system per ISO/IEC 17025.
- Planning and executing an effective internal audit program.
- To ensure there are procedures to control all documents and information that forms quality documentation in line with global QMS.
- To plan and conduct MRM's as per the QMS.
- Ensure compliance with laboratory accreditation, regulatory standards and management policies by providing leadership and guidance to staff to ensure that quality policies, processes and procedures are established, current and adhered to by all laboratory staff.
- Working knowledge of accreditation standards, practices and guidelines sufficient to advise and guide laboratory managers and supervisors as they implement and maintain accreditation.
- Working knowledge of computer and analytical software programs sufficient for evaluation of electronic data, data interpretation, and report development.
- Overseeing or Local accreditation activities.
- Providing quality system training to staff.
- Understanding customer needs and requirements to develop effective quality control processes.
- Awareness of OHSAS 45000 is added advantage for laboratory process. Also ensure Quality & process safety inline with global policies & procedures.
- Hands on experience in BIS, CBTL & TEC certification process.

Experience: 10-15 years of direct experience with quality systems such as ISO/IEC 17025, ISO/IEC 17065 and/or ISO/IEC 17020

following areas:

- Excellent organizational skills with meticulous attention to detail.
- Clear communication abilities with colleagues, accreditation bodies, and customers.
- Objectivity regarding compliance and a drive for continual improvement in the certification body's effectiveness.
- Completion of a minimum 4-day internal auditor training course or equivalent auditing experience.
- Technical experience in testing, inspection, or certification is advantageous.

Location: - Pune

Educational Qualifications:

- Bachelor's degree in Electrical and Electronics Field. Having technical background on Product testing is added advantage.

Salary: Negotiable.

DEKRA provides an exciting & stimulating work environment and an opportunity for rapid career progression. We provide our employees with regular training and knowledge and encourage them to implement original and unique solutions. Our compensations match the best in the industry.
