**DTM and DEKRA will continue to work together. The international expert organization and German automobile club ADAC, the owner of the DTM brand rights, have agreed on a long-term extension of the partnership. DEKRA will continue to be the technical partner of the DTM. The DEKRA experts will be responsible for the technical scrutineering in the DTM and the DTM Classic. The same applies to the ADAC GT4 Germany series.**

In addition, DEKRA supports the above-mentioned racing series as well as the ADAC GT Masters and the Prototype Cup Germany as an Official Partner. This means that DEKRA is a partner of all the professional circuit series of the ADAC; the DEKRA logo can be seen on the starting numbers in each case. “As a long-standing partner of the DTM and the ADAC, it was a matter of course for us to continue our more than 30-year partnership in the new era of the DTM under the umbrella of the ADAC”, said Guido Kutschera, Head of DEKRA Germany and Chairman of the Management Board of DEKRA Automobil GmbH. “We are very happy to bring our many years of motorsport expertise – combined with technological innovation – to the racing events and we are looking forward to our continued collaboration.”

“DEKRA has been associated with the ADAC and its racing series for many years and has been a partner of the DTM for over 30 years. We are delighted to be opening a new chapter together with DEKRA in the DTM under the ADAC umbrella and comprehensively expanding our partnership. DEKRA's technical expertise is a guarantee for safe sport in the DTM”, says ADAC Sport President Dr. Gerd Ennser.

### **About DEKRA**

*DEKRA has been active in the field of safety for almost 100 years. Founded in 1925 in Berlin as Deutscher Kraftfahrzeug-Überwachungs-Verein e.V., it is today one of the world's leading expert organizations. DEKRA SE is a subsidiary of DEKRA e.V. and manages the Group's operating business. In 2022, DEKRA generated preliminary sales totaling almost EUR 3.7 billion. The company currently employs over 48,000 people (as of 30.09.2022) in approximately 60 countries on all continents. With qualified and independent expert services, they work for safety on the road, at work and at home. These services range from vehicle inspection and expert appraisals to claims services, industrial and building inspections, safety consultancy, testing and certification of products and systems, as well as training courses and temporary work. The vision for the company's 100th birthday in 2025 is that DEKRA will be the global partner for a safe, secure, and sustainable world. With a platinum rating from EcoVadis, DEKRA is now in the top one percent of sustainable businesses ranked.*
