Press Release

DEKRA at the "Power2Drive Europe 2024" trade fair and conference

Expertise for Safe Charging and Sustainable E-Mobility

Testing and certification organization DEKRA will be presenting its comprehensive expertise in the field of electromobility at the leading international trade fair and conference "Power2Drive Europe" in Munich. From June 19 to 21, 2024, DEKRA experts will be showcasing solutions for a safe charging infrastructure, battery technology and the integration of renewable energies for sustainable mobility. DEKRA expertise will also enrich the program of the accompanying conference from 18 to 19 June 2024.

DEKRA is a driving force in the development of safe mobility solutions and renewable energies. The world's largest non-listed testing and certification organization offers a comprehensive range of services along the entire value chain for energy generation, infrastructure, and vehicles. The aim is to ensure safe, sustainable, and climate-friendly mobility.

"Power2Drive Europe" in Munich is the international trade fair for charging infrastructure and electromobility. Under the motto "Charging the Future of Mobility", it offers the latest technologies, solutions, and business models for a sustainable mobility world. DEKRA experts will be providing comprehensive information at the **trade fair** in Hall C6, Booth C6.480:

- Testing and certification services for charging infrastructure including cyber security.
- Battery testing for conformity, safety, and state by recognized testing laboratories.
- Product testing and certification services for the photovoltaic industry in accordance with international standards - particularly interesting for visitors to the "Intersolar Europe" trade fair taking place at the same time on the same site.
- Integration of safe and sustainable vehicle-to-grid (V2G) mobility solutions.

Two DEKRA experts will contribute to the accompanying "Power2Drive Europe **Conference**" from June 18 to 19, 2024 at the ICM Munich with exclusive contributions:

Date Stuttgart, June 6, 2024 / No. 051

About DEKRA

DEKRA was originally founded in 1925 to ensure road safety through vehicle inspection. With a much wider scope today, DEKRA is the world's largest independent non-listed expert organization in the testing, inspection, and certification sector. As a global provider of comprehensive services and solutions, we help our customers improve their safety, security, and sustainability outcomes. In 2023, DEKRA generated revenue of EUR 4.1 billion. The company currently employs around 49,000 people who offer qualified and independent expert services in approximately 60 countries on five continents. With a platinum rating from EcoVadis, DEKRA is now in the top one percent of sustainable businesses ranked.
