

PRODUCT SHEET ISO 26000

Sustainable management and the associated responsible action are becoming increasingly important for companies. Company leaders are keen to implement measures and systems in line with ISO 26000 standard guidelines for social responsibility. DEKRA provides comprehensive ISO 26000 maturity of your social responsibility practices helping you assessing and scrutinizing your impact on society, environment, and stakeholders so you can make the changes you need to succeed.

Our Approach to ISO 26000 Maturity Assessment

ISO 26000 maturity assessment is conducted over a web-based system designed to measure a company's maturity level and the level of improvement relevant to your current social responsibility strategies, protocols and systems.

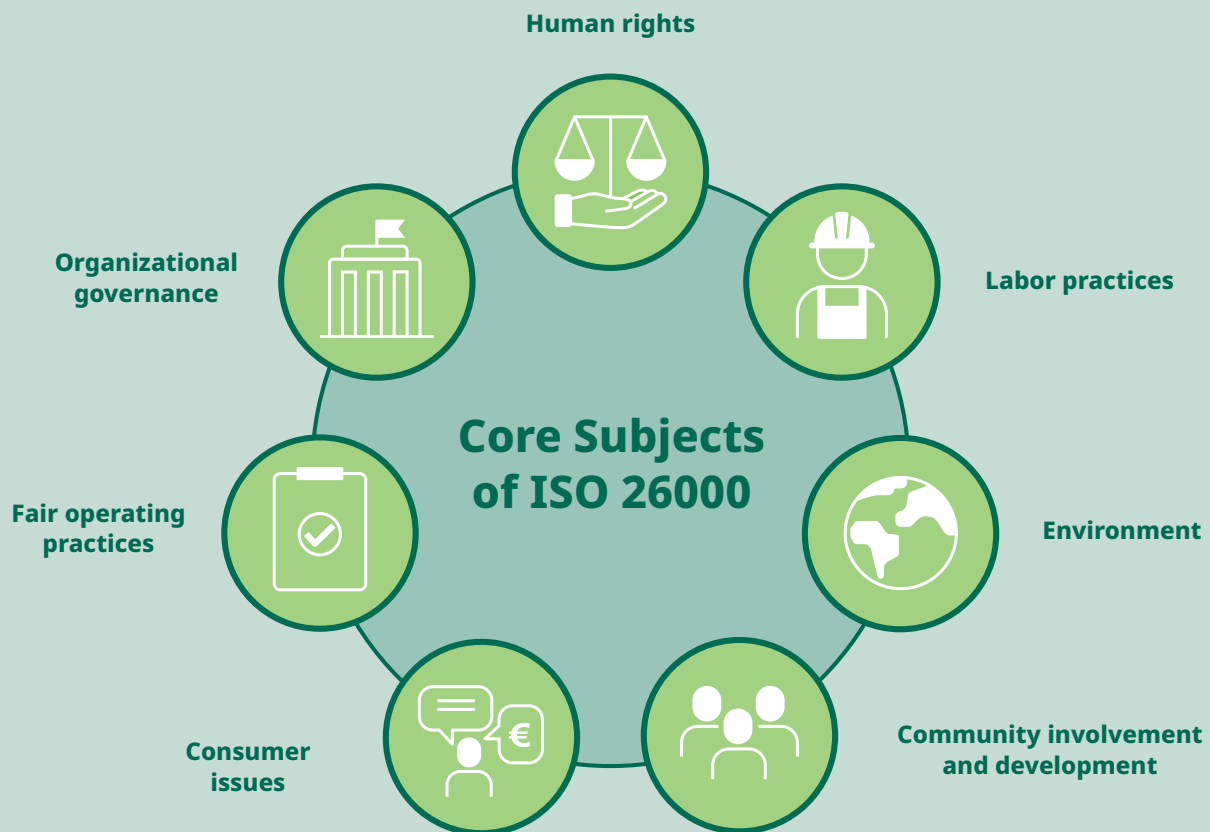

Created to help all types of organizations set goals and appropriately contribute to the health and well-being of their communities, our assessment is best applied as a continuous method used to keep track of pitfalls and progress. Distributed over 5 levels of maturity, DEKRA ISO 26000 maturity assessment rates existing policies, practices and initiatives to identify areas of strength and those needing improvement.

To help you determine whether your company is ready for complete ISO 26000 maturity assessment,

we provide pre-self-assessment developed to specifically identify gaps and assess the readiness of your social responsibility strategies and systems. DEKRA experts are always ready to answer any questions regarding **pre-self-assessment** and ensure that you are fit and well prepared for productive ISO 26000 maturity assessment.

Benefits of Comprehensive Maturity Assessment

- ▶ Integrate social responsibility in your core business
- ▶ Be visible by caring about the environment and its sustainability
- ▶ Enhance the reputation of your company
- ▶ Attract new customers and employees
- ▶ Enhance the loyalty of workers and customers
- ▶ Implement fair operating practices
