

INFOSHEET AUTOMOTIVE STOCK AUDITS

Having a clear tally and status listing of owned or financially subsidized vehicle assets held in dealerships and storage units is key to running a successful business. Our **automotive stock audits** provide you the information you need to properly calculate, better manage and strategically leverage the value of your automotive inventory.

Insight into actual stock evaluation

Automotive stock audits afford lenders a valuable tool when conducting reliable bookkeeping, managing dynamic financial accounts and tracking timely reimbursement from their dealership partners. Our independent stock audits catalog vehicles on hand, itemize vehicles sold and confirm up-to-date contractual compliance according to accepted financial commitments. We verify the location and condition of vehicle assets to help financiers prove actual holdings, accelerate after-sale reimbursement and better manage lending risk.

Stock audits for stronger protection and management strategies

In addition to helping you minimize the risk of contractual non-compliance and avoid unnecessary fees, our stock audits give you an optimal overview and ensure the quality of your current reserves. We conduct physical inspections to record models, makes and serial numbers as well as GPS localization and photographic documentation. Impartial and experienced auditors provide comprehensive services to help you determine areas for improvement in managing your automotive inventory.

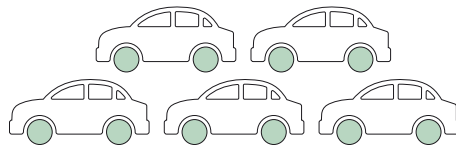

Customized to fit your auditing requirements

Whether stand-alone or recurring inspections over the long term, our automotive industry experts provide you comprehensive vehicle stock auditing. Our services are tailored to your particular needs and individual risk profile to ensure your records are up to date and correct. Complete and reliable reporting chronicles the in-depth assessment of your automotive stock audit for an easy-to-understand reference of record.

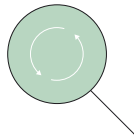

Independent international services from a single source

We provide objective third-party auditing services you can trust to support your efforts in establishing high accounting standards for effective risk management and strengthening your fiscal standing for maximum results.
