DEKRA

PRODUCT SHEET

ISO 42001
Certification for AI Management Systems

ISO 42001 is the first international benchmark for Artificial Intelligence Management Systems (AIMS). It provides organizations with comprehensive guidelines to responsibly and effectively leverage AI technologies. Designed to address the full spectrum of AI applications, risks, and governance requirements, this standard ensures an integrated, structured, and reliable approach to managing AI systems.

Our Expert Approach to ISO 42001 Certification

With deep expertise and global industry insight, DEKRA supports organizations in aligning their AI strategy, compliance, and governance with business objectives. Our approach ensures the seamless integration of an Artificial Intelligence Management System into existing structures and risk frameworks.

Our streamlined certification process minimizes operational disruption, enhances accountability, accelerates time-to-market for AI solutions, and strengthens stakeholder confidence—positioning your organization as a leader in responsible, compliant, and trustworthy AI management.

Key Benefits of ISO 42001 Certification

▸ **Enhance Trust in Artificial Intelligence:**
Strengthen confidence in safe, ethical,
and responsible AI usage across your organization.

▸ **Efective AI Risk Management:**
Identify, evaluate, and mitigate risks associated with
AI models, data, and automated decision-making.

▸ **Promote AI Transparency:**
Operate AI applications transparently to improve
user trust, market reputation, and regulatory
readiness.

▸ **Regulatory Compliance for AI Systems:**
Demonstrate adherence to current and future AI
regulations, including EU AI Act requirements.

▸ **Ethical AI Governance:**
Ensure responsible AI practices aligned with inter
national standards, legal frameworks,
and best-practice principles.

Additional Certification Services

DEKRA offers certification for a wide range of ma-
nagement systems, including:

▸ **ISO 27001 – Information Security Management**

▸ **ISO 27017 – Cloud Security Controls**

▸ **ISO 27018 – Protection of Personally Identifiable
Information in Cloud Services**

▸ **ISO 9001 – Quality Management**

▸ **Combined and integrated management system
certifications**

Our portfolio includes more than 60 accreditations
and approvals worldwide, ensuring comprehensive
support for your digital transformation and compli-
ance journey.

Why Choose DEKRA?

DEKRA is a global leader in audit, assessment, and
certification services with unmatched expertise in
AI standards, cybersecurity, data protection, and
management systems.
With decades of experience and a trusted inter-
national reputation, DEKRA significantly enhances
the value and global credibility of your ISO 42001 AI
certification, helping position your organization as a
pioneer in safe and trustworthy AI.
