

VENDOR INSPECTIONS AND EXPEDITING SERVICES

Making sure suppliers continually provide goods and services in line with your quality specifications and regulatory requirements can be challenging. Complex networks made up of international partners working in diverse jurisdictions must be managed carefully to effectively protect your business. DEKRA provides the vendor inspections and expediting services you need to thoroughly examine each link in your supply chain. We help you find your perfect match from vetted and experienced DEKRA inspectors pre-selected exclusively for you.

Tailored services and expert inspectors

We support worldwide projects from the oil and gas, chemical and petrochemical, energy, pulp and paper industries as well as other sectors with comprehensive vendor inspection services at a global scale. Our flexible portfolio allows you to choose a single service or build a bundle of services according to your inspection needs. DEKRA inspectors with extensive experience and regulatory expertise relevant to your industry and geographic locations are handpicked to help you confirm that your partners are authentic, effective and trustworthy. We present you a list of suitable inspectors from which you can appoint the candidate best aligned with your situation.

Objective, transparent inspection you can rely on

Experienced DEKRA project coordinators are on hand at anytime, anywhere in the world to help you find the **vendor inspection and expediting services** that meet your requirements. After you have opted for a single inspection or a bundle of services, a list of matching inspectors will be compiled from our international network of experts. Upon your final selection, the chosen inspector will work on your behalf, ensuring:

- ▶ Quick response times keeping inspection efforts and project timeline on course
- ▶ Regional proximity and familiarity to ensure the best understanding and application of relevant local regulations
- ▶ Increased confidence in verified supply chain quality so you can focus on your business
- ▶ Cost-efficient inspection for added value along your entire supply chain

DEKRA vendor inspections to confirm supplier quality and dependability

To support you in your efforts of verifying vendor claims, quality norms and regulatory reliability relevant to your needs, our comprehensive inspections include:

- On-site examinations**
Independent 2nd party inspection verifying all kinds of new-build mechanical, rotating, electrical and instrumentation equipment have been manufactured in accordance with your specifications as well as regulatory requirements.
- Vendor qualification assessments**
Determination of whether a supplier retains a documented quality system built on effective processes and provable results to ensure their capacity to meet any and all contractual quality requirements readiness.
- Expediting services**
In-depth investigation of manufacturing progress to evaluate whether a supplier is able to satisfy expectations regarding quality and conformity standards as well as meet appropriate packaging and timely delivery stipulations.
