

The background of the entire slide is a close-up photograph of a hand holding a small, rectangular electronic component with many gold-colored pins. In the background, a larger, more complex circuit board is visible, with various components and a bright light source creating a bokeh effect.

Certification of your information security management

ISO 27001 **product sheet**

As digitalization increases, so does the need for a robust and effective information security management system (ISMS). With ISO 27001 certification, you demonstrate that your ISMS meets the current IT security requirements.

What ISO 27001 stands for

It is considered one of the most important certifications in the field of cyber security, and defines guidelines for the planning, implementation and controlling of information security in your company. An information security management system (ISMS) according to ISO 27001 is based on the PDCA cycle (plan-do-check-act) according to ISO 9001 and therefore simplifies the holistic management of your information security. Special requirements apply to the availability, confidentiality and integrity of your information and data. With [certification according to ISO 27001](#), you demonstrate that you recognize, assess and consistently manage risks to your company at an early stage.

What does DEKRA offer you?

With our technical know-how and many years of experience with process-oriented management systems, we are able to provide you optimum support with your certification. With us, information security will become an integral part of your organization. Enjoy the following benefits:

- ▶ Protection against disruptions, malfunctions, espionage, misuse and the consequential costs in an era of increasing globalization and far-reaching networking
- ▶ Ensure your business operations through the availability of your IT systems and processes
- ▶ Raise your level of risk awareness
- ▶ High compatibility with other management standards, such as ISO 9001 and ISO 14001

We can offer you practical and straightforward support with all questions surrounding your certification. Neutral and independent. And with a view to your goals.

Do you have any questions about the certification of your ISMS according to ISO 27001? Then contact us now!

ISO 27001 certification procedure

Other services you can benefit from

You can also have other quality, environmental and safety management systems certified by us, for example, in accordance with [ISO 9001](#), [ISO 14001](#) and [ISO 45001](#), as well as combinations of the above. Our wide-ranging portfolio offers you the right certification! The DEKRA Group also offers you the following services:

- ▶ Assessments regarding compliance with specific rules
- ▶ Personal certifications
- ▶ Product tests and certification

Excellence – the DEKRA seal

Add an exclamation mark that stands for the highest quality and reliability – across all industries and internationally. The DEKRA seal is an excellent way to promote your company's image, a marketing tool and a way to stand out from the competition. In this way, you can show your customers and business partners that your service is worth their time and money. We will be happy to assist you.

*For better readability, we use the shortened term "ISO 27001."
The full name of the standard is "ISO/IEC 27001:2022."
Further information on the standard designation is available on our [website](#).*
