Certification
of your occupational
safety management system
according to SCC/SCP

Product sheet SCC/SCP

Demonstrate your fulfillment of international industry standards with your certification SCC (safety certificate contractor) or SCP (safety certificate personnel services) ensure that your management and work processes fulfill the highest safety requirements.

What SCC/SCP stands for

The SCC regulations are a combined management system for occupational health and safety in safety-critical industries. The SCP regulations apply to personnel services companies in particular. Depending on the area of activity, SCC/SCP certification distinguishes between the following two areas:

Area 1

▸ SCC* - for companies with a maximum of 35 employees that do not use subcontractors
▸ SCC** - for companies with more than 35 employees or for companies that use subcontractors for their technical services
▸ SCCP - for subcontractors that have to meet specific requirements in the petrochemical industry

Area 2

▸ SCP - for personnel services companies

Benefit from our
SCC/SCP certification

As an internationally recognized standard, SCC/SCP not only means a reliable reduction in the risk of accidents in the company, but also a lower workload for your clients. The clear and uniform safety criteria mean that there is no requirement for in-house assessment and control systems.
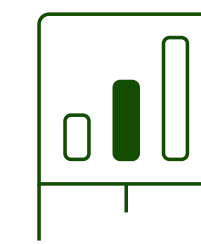

Steps for your successful certification

1. Information meeting
2. Document review and on-site audit
3. Audit report
4. Certificate and DEKRA seal
5. Monitoring

Are you interested in our SCC/SCP certification and would like to demonstrate the safety of your products to your customers?
