

Is Your Safety Programme Effective?

10 Questions Every Safety Leader Should Ask Themselves

- 1 Do I have a clear road map to meet my safety goals?
- 2 Am I concerned about safety exposures in my organisation, but don't know where to start?
- 3 Has my facility recently had a Serious Injury or Fatality (SIF) event or close call?
- 4 Do I know how to recognise the early-warning signs of a potential catastrophic incident?
- 5 Am I struggling with Human Error and Human Performance Reliability in my organisation?
- 6 Am I merging with another organisation, acquiring a new facility, or expanding operations?
- 7 Am I struggling to meet or interpret regulatory requirements related to safety?
- 8 Does my organisation have a catastrophic incident prevention program?
- 9 Do I have reliable safety metrics and benchmarks to help identify areas for improvement?
- 10 Do I work in a High Reliability Organisation? If not, do I know how to become one?

If you are unsure about the effectiveness of your safety program, we can help you identify:

- **WHERE** your safety risks exist
- **WHY** safety incidents are occurring
- Prioritise **WHAT** to do to prevent exposure
