

# QHSE Policy Statement

DEKRA UK Limited uses innovative expertise and deep technical knowledge to bring about positive and sustainable change in safety, health and the environment and promotes a culture of care for both clients and our people.

We will assess the impact on the environment of all our activity and seek to improve environmental performance to minimise the effect on the planet's natural resources.

Personal health and safety is fundamental to everything we do and we will ensure that this is not compromised during our service delivery. We will consult with our employees in eliminating hazards or reducing safety risks to minimize work-related illness and injuries.

We acknowledge that continuing success depends upon the provision of consistent quality in all areas of operation to ensure total client satisfaction.

DEKRA UK Ltd has developed a management system in line with ISO 9001, ISO14001 and ISO45001 requirements which we continuously review to improve our capability and practice.

To implement this policy we shall focus on the needs of our business with particular reference to consistently meeting our customers' requirements and statutory obligations.

The employees of DEKRA UK Ltd. recognise their respective role in conforming with the requirements of the management system and their contribution to its improvement through support of policies, procedure and business objectives, which will be reviewed and improved to enhance the system's performance.

This policy will be displayed in the workplace and made available to all on the company internet site.
