

Audit Management

Streamline internal and external audits

Inspect what you expect — efficiently and accurately. Filtering capabilities allow safety managers to generate and sort reports by relevance, and make the audit compliance process more efficient.

How we do it

Audit Management

The Audit Management application streamlines the auditing process so your organization can gain an accurate picture of your safety programs.

Features

- Schedule and track internal and external audits and inspections
- Audit back to internal policies or procedures to track compliance
- Assign audit teams
- Set frequency of audits
- Customize audits specific to location and operation; assign maximum scores for each
- Assign & track corrective actions to completion
- Trend audit scores by policy, audit, audit question or location over time
- Identify repeat audit findings
- Request corporate policy or procedural reviews based on audit findings
- Generate, sort and track reports (completed/uncompleted, approved/unapproved, corporate/location)
- Record audit completion dates and participation of audit teams
- Force feedback from auditors based upon audit findings and scores
- Available in multiple languages
- Directly links with *My Insight Mobile App*

About Us

We are consultants and business partners to many of the world's largest chemical, oil and gas, transportation, utility, pharmaceutical, and agriculture companies. Through a transformational approach, we guide clients in evolving both their organizational culture and their operational environment, enabling them to reduce exposures and injuries, save lives, protect assets—and in the process, achieve higher performance.
