

# Behavior Based Safety

Track behavioral  
observations to identify risk  
and potential injuries

"[DEKRA] offers a fantastic tool that allows us to manage the leading indicators of our Behavior Based Safety process and to optimize the effectiveness of our observations, feedback and reinforcement. We also utilize it to "close the loop" on our incident investigation process. Overall, I have been pleased with our results and highly recommend [DEKRA] for anyone looking to enhance their safety process."

-Corey Hopkins  
Director of Safety

# How we do it

## Behavior Based Safety

DEKRA's Behavior Based Safety application has the capacity to alter or build observation forms for specific facility types, and integrates fully with all other Insight Via™ applications.

## Features

- Identify, analyze and minimize potential accidents in advance
- Application allows you to choose what behaviors to analyze
- Collect and analyze observation data
- Observe barriers that prevent safe working environments
- Automatically create workflow to follow up barrier observed Assign and track corrective actions to remove barriers
- Observations can be reviewed by managers and tracked
- Generates easy-to-understand reports — in a variety of formats — based on behaviors, locations and degree of compliance with your company's stated objectives
- Connect behavioral safety observations with root cause analysis to evaluate leading vs. lagging indicators
- Observations can be linked back to company policies and training requirements
- Translates automatically into multiple languages
- Directly links with our **BBS EZ Scan** and **My Insight Mobile App**

## About Us

We are consultants and business partners to many of the world's largest chemical, oil and gas, transportation, utility, pharmaceutical, and agriculture companies. Through a transformational approach, we guide clients in evolving both their organizational culture and their operational environment, enabling them to reduce exposures and injuries, save lives, protect assets—and in the process, achieve higher performance.
