

# Performance Insight

## Benchmark Company Safety Performance

Data analysis has just been revolutionized. DEKRA's Performance Insight tool allows users to compare safety performance data against companies in specified data groups as well as internally amongst business units.

A new and innovative approach to assist companies in achieving safety excellence. Remove the question "How do I get there?"

# How we do it

## Performance Insight

Directly assess your organization's safety performance and streamline the process of prioritizing which safety activities will most effectively reduce risk.

## Features

- Performance Insight Dashboard allows for configuration of company specific Key Performance Indicators(KPIs) and data metrics
- Request specific data groups for comparing performance metrics
- Create reports based on KPIs to assess performance with organizations in specified data groups
- Heatmap generates a month-to-month performance comparison to selected data groups
- Drill down functionality to benchmark within your own organization
- Save custom created charts for future viewing and use
- Export capabilities available for all charts & data being measured

## Maching Learning

- Assesses data input to make recommendations on which safety activities will have the greatest impact on reducing risk
- Prioritizes recommendations based on greatest impact, allowing users to maximize effectiveness of safety efforts

## About Us

We are consultants and business partners to many of the world's largest chemical, oil and gas, transportation, utility, pharmaceutical, and agriculture companies. Through a transformational approach, we guide clients in evolving both their organizational culture and their operational environment, enabling them to reduce exposures and injuries, save lives, protect assets—and in the process, achieve higher performance.
