Safety Data Sheets (SDS)

Easily store and access Safety Data Sheets

The ability to store SDS sheets in an online format for easy accessibility and organization for the whole company in one place.

DEKRA

How we do it

Safety Data Sheets (SDS)

The safety data sheet application will allow each location to easily access and manage safety data sheets associated with company requirements.

Features

- Access SDS's online in an easy to use company portal
- Manage sheets corporately to drive compliance for each location
- Sheets can be stored as files or links for ease of use
- Document uploads can be classified by language
- Managers can select specific sheets associated with their location
- Search capabilities available to quickly find documents in database
- SDS specific labeling
- Track review dates and reviewers by location and SDS
- Export option available for SDS list
- Track and generate reports by chemical or location
- Report subscriptions available

DEKRA

About Us

We are consultants and business partners to many of the world's largest chemical, oil and gas, transportation, utility, pharmaceutical, and agriculture companies. Through a transformational approach, we guide clients in evolving both their organizational culture and their operational environment, enabling them to reduce exposures and injuries, save lives, protect assets— and in the process, achieve higher performance.
