

What is  
**Process Safety Management**  
and why does it  
**matter to you?**

## “Keep it in the Pipe.”

Process Safety Management is the collection of management systems needed to prevent catastrophic incidents caused by the use, storage, transport and manufacture of hazardous materials.

## Program Terminology

Rare and  
Catastrophic

Multiple Fatalities  
per Event

Environmental &  
Community Impact

Public Reputation Disaster

More Frequent  
and Less Serious

Disabling Injury  
or Single Fatality  
per Event

Both programs cover **Serious Incidents** and **Fatalities**, but **Process Safety** covers the more **rare** and **catastrophic** events.

## Why does Process Safety matter to you?

I have witnessed a Process Safety incident

I know colleagues, friends, or family who have been hurt or killed by a Process Safety incident

My community was impacted by a Process Safety incident

My livelihood (business) was impacted by a Process Safety incident

I have felt anger or embarrassment for being associated with my industry because of a Process Safety incident
