DEKRA Adaptive Suite
Audit Management

DEKRA

Streamline internal and external audits.

Inspect what you expect — efficiently and accurately. Adaptive Suite's audit management application supports effective audit processes, superior compliance, and continuous improvement in safety management.

How do we do it

Audit Management

The Audit Management application streamlines the auditing process so your organization can understand your safety programs accurately.

Features

- Schedule and track internal and external audits and inspections
- Audit back to internal policies or procedures to track compliance
- Assign audit teams
- Set the frequency of audits
- Customize audits specific to location and operation; assign maximum scores for each
- Assign & track corrective actions to completion
- Trend audit scores by policy, audit, audit question, or location over time
- Identify repeat audit findings
- Request corporate policy or procedural reviews based on audit findings
- Generate, sort, and track reports (completed/uncompleted, approved/ unapproved, corporate/location)
- Record audit completion dates and participation of audit teams
- Force feedback from auditors based on audit findings and scores
- Available in multiple languages
- Directly links with **the Adaptive Suite** *Mobile App*
